

**Show-Rite<sup>®</sup> Cattle Feeding Guide**  
**Steers & Breeding Heifers - Complete Feed**  
**GET 'EM FAT- THEN GET 'EM HAIRY**

Throttled Up	To be fed to growing and finishing cattle until desired body condition is achieved.
Cruiser	To be fed to cattle that have desired body condition or cattle that need to grow frame.
Stretch	For extra body or fill. Use in place of beet pulp to gain maximum fill
Beef Creep	A complete texturized feed for baby calves, birth through weaning. Cracked corn, oats, barley, cottonseed hulls with linseed meal and molasses. Amaferm <sup>®</sup> and Tasco <sup>®</sup> are also included.
Nutribase Beef	An all natural 34% protein supplement to be mixed with corn, oats, barley, and cottonseed hulls to make creep feed, grower rations and finishing rations.
For cattle that are in between the body condition described above, feed 50% Throttled Up and 50% Cruiser to achieve desired body condition results.	
Always feed grass hay (round bale preferred) FREE CHOICE along with Show-Rite <sup>®</sup> cattle feed at 2.5% of their body weight.	
To encourage high health status and keep cattle on feed use CRYSTALYX <sup>®</sup> Brigade <sup>®</sup> tubs at all times.	

## Show-Rite® NutriBase Plus Mixing Directions

Cottonseed Hulls, lbs.	400	255
Molasses, lbs.	100	100
Vegetable Oil, lbs.	15	20
<b>TOTAL</b>	<b>2000</b>	<b>2000</b>
<b>Nutrient Specs</b>		
Protein	12.0%	12.0%
Fiber	12.0%	6.0%
Fat	4.2%	4.1%
NEG	48.0	53.0

## Show Cattle Feed Additives

**GLU-Coat:** Feed at the rate of 6 to 8 oz. per head per day to increase body condition, keep animals on feed, build immune system response, maximize feed utilization and overall herd health. One bucket (50 lb. jug) is approximately a 100 day supply for one head.

**Hide and Hair:** To encourage hair growth, skin health and lower body temperature. Needs to be fed 90 days prior to show for best results at the rate of 1.5 scoops per head per day. One bucket is a 45 day supply per head.

**Natural Stride:** To enhance mobility and flexibility while protecting structural integrity. Feed at the rate of 2 scoops-twice a day. For starting larger cattle (1,250 lbs. plus), 3 scoops twice a day.

**Refresh:** A high energy electrolyte to be utilized in revitalizing muscle tissue at show time.

**Relaxlyx:** Designed as a self-fed supplement to provide nutritional support to help overcome the stressful demands in a competitive show environment.

**Stretch:** Designed to increase expansion of the belly, can be used the day of the show, a few days before the show, or can be added as holding ration weeks prior to the show. Feed at the rate of 2 to 5 lbs. per head per day.
