

# Seco-Sorb

#40925

## Ready-to-use Moisture Absorbent for Livestock

The quality of an animal's productivity is directly related to its environment. Reducing moisture supports a stable, healthy environment and assists in decreasing the pathogens that the animal might be exposed to. Seco-Sorb is a high quality ready-to-use moisture absorbent that reduces the potential for growth of bacteria, mold and fungus. Seco-Sorb can be used in a variety of building types and animal species.

**Key Functional Components:** Mineral Absorbents, Vegetable Absorbents, Zinc & Essential Oils

### When to Use

- On piglets immediately after birth
- Use on comfort mats & flooring in all stages of pork production
- On dairy cow bedding to reduce environmental moisture
- In poultry barns to reduce ammonia odor

### Features & Benefits

- Drying ability
- Conserves body heat of newborn piglets – decreases risk of chilling
- Reduces environmental moisture, which reduces the likelihood of bacterial growth
- Absorbs more than its own weight in water. Drying of wet surfaces reduces chance of injury to the animal/caretaker
- Animal friendly - all ingredients classified as GRAS (Generally Regarded As Safe)
- Use for all species
- Pleasant fragrance

### Directions for Use

**For Swine:** Hold newborn piglets over a container and rub Seco-Sorb on the pig vigorously from the neck to the tail until the pig is dry. Sprinkle Seco-Sorb on comfort mats and/or flooring to soak up moisture due to scouring, urination or water.

**For All Other Species:** Sprinkle Seco-Sorb on bedding and/or flooring to soak up moisture due to scouring, urination or water.
