Calcium, Minimum.....	0.90%
Calcium, Maximum.....	1.40%
Phosphorus, Minimum.....	0.70%
Sodium, Minimum.....	0.75%
Sodium, Maximum.....	1.25%
Iron (Fe), Minimum.....	200 ppm
Selenium, Minimum.....	0.30 ppm
Zinc, Minimum.....	150 ppm
Vitamin A, Minimum.....	45,000 IU/lb.
Vitamin D ₃ , Minimum.....	15,000 IU/lb.
Vitamin E, Minimum.....	100 IU/lb.

MANAGEMENT TIPS:

- Reconstituted acidified formula remains fresh up to 24 hours due to acids and preservatives.
- Avoid overfeeding to reduce risk of scours.
- Hygiene is important. Keep feeding equipment clean.

Warning: This product contains supplemental copper and should not be fed to sheep.

MIXING INSTRUCTIONS:

For one gallon of mixed milk replacer: Add and mix 1 lb. (4 cups*, level full) of milk replacer powder to 1 gallon of warm water (120° F.) Feed liquid solution to baby pigs at around 100°F.

*1 level plastic cup enclosed in pail approximately equals 1/4 lb. (4 oz.) of dry milk replacer.

FEEDING INSTRUCTIONS:

Supplementary feeding - baby pig still with sow. (restricted basis - feed twice a day)

ADDITIONAL DIRECTIONS:

Slop: Mix 1 cup (4 oz.) per 16 oz. water with feed at each feeding.

Top-Dress: Sprinkle 1 cup (4 oz.) dry Show-Rite Milk Replacer on the feed (2) twice/day.

Age of Pigs / Days	Amount of Liquid Milk per Pig per Feeding (oz.)
0 - 3	2.75
4 - 5	4.00
6 - 13	5.50
14 - 16	6.75
17 - weaning	8.00

INGREDIENTS:

Refer to the product tag/label for a complete list of ingredients.

BIO-MOS® is a registered trademark of Alltech®

Profile:

Show-Rite Milk Replacer can be mixed with water and fed as a liquid to supplement young pigs on the sow. It can also be used as a top-dress or mixed with water and fed as a slop with dry feed.

- Contains Bio-Mos® which promotes gut health and intake in young pigs
- Flexible formulation for use on pigs of all ages
- Mixes well with tap water
