Vitamin E, min	170 IU/LB

*This includes not more than 0.9% equivalent protein from non-protein nitrogen.

ACTIVE DRUG INGREDIENTS

Decoquinatone...(45.4 G/TON) 22.7 MG/LB

PROFILE:

Show-Rite Newco Goat is a highly palatable and digestible feed that promotes rumen stability, avoiding the wide variations in pH that can interfere with fiber digestion and feed intake. It's specifically designed to maximize muscle development and provide an ideal handle while maintaining enough fat cover for the perfect, extra-smooth finish in show goats.

FEEDING INSTRUCTIONS:

Feed Show-Rite NewCo Goat Grower D22.7 at the rate of 1.0 pound per 100 pounds of body weight along with good quality forage to starting goats to provide 22.7 milligrams of Decoquinatone per 100 pounds of body weight per day. Provide a constant supply of clean, fresh water.

Hubbard does not use "Restricted-use Proteins" in their products and is in compliance with FDA and state requirements regarding the use, handling and storage of "Restricted-use Protein" products.

INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

WARNING:

Do not feed to goats producing milk for human consumption.

CAUTION: Do not use Decoquinatone in feeds containing bentonite.

LIMITATIONS FOR USE: Feed at least 28 days during periods of exposure to coccidiosis or when experience indicates that it is likely to be a hazard.

Options in a 50-lb bag #77355 or bulk invoice
